

We're excited to share that we are transitioning to a new patient care platform: AdvancedMD a platform designed to improve your experience and make managing your healthcare easier than ever.

Here's What You Need to Know Prior to your upcoming appointment

Register for your Advanced MD Patient Portal!

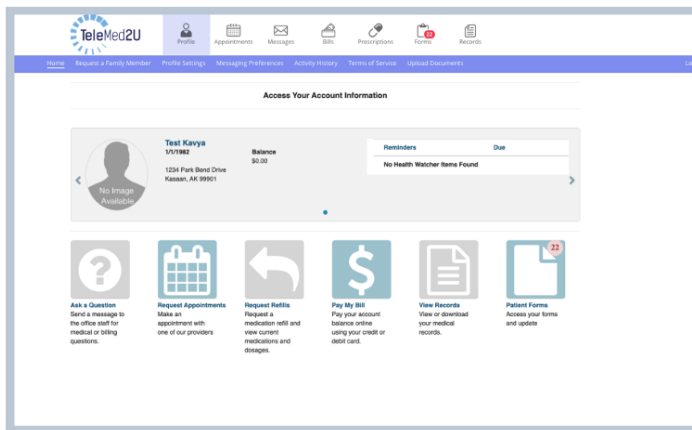

You will receive an email from TeleMed2U Inc. with a link to create your patient portal account. Click on the [Create Your Account](#) button.

Create a Password and enter your Date of Birth. Check the box to agree to the Terms & Conditions and Register.

If you are unable to locate your patient portal invitation email you can use the link here to Register: [Advanced MD | Patient Portal](#)

Once you have logged into your portal you can complete or update patient forms, access your medical records, and more.

Complete Intake Paperwork BEFORE your Appointment

As part of the transition, you'll receive an email to complete your intake forms ahead of your next visit.

Completing these forms with up-to-date information is essential to ensure a smooth appointment and allows us to provide the most effective care.

Fill Out Updated Consent Forms

With the launch of AdvancedMD, all patients are required to **complete new digital consent forms**.

These forms cover important updates to our policies and **MUST be signed before your next appointment**. You'll receive the consent form alongside your intake paperwork in your portal.

To locate results from your recent visit choose the tabs: Records > Docs & Images
